Is a grading map attached showing existing contours, proposed excavation contours, and the proposed final grade contours? YES or NO

Is a statement attached identifying the effect on the groundwater table of the adjoining properties? YES or NO

Is location identified of proposed vehicle and equipment storage areas, erosion controls, including retention and sediment basins during extraction to prevent a change in the character or runoff onto adjacent land? YES or NO

It shall be the responsibility of the owner of the land from which the soil is being removed to meet the following conditions:

The character of runoff from and onto adjacent land shall not be changed.

There shall be no excavation closer than one hundred feet of any abutting property not involved in the operation. All cuts shall be no less than four to one.

The topsoil shall be collected, stockpiled, and redistributed over the exposed soil area of the operation. The soils in the excavation area shall then be stabilized and the land graded, seeded, or sodded to prevent erosion and siltation.

The owner of the property from which the soil is being removed may be responsible for costs for any damage to county roads or bridges used for access to the site which requires additional maintenance or repair from normal county maintenance or repair as a result of additional traffic generated.

The protection of the public health and safety shall be the responsibility of the owner of the property from which the soil is being removed. Upon observing a problem or verifying a complaint, the Zoning Administrator may order the operation to cease until the problem is resolved.

All extraction of soils within a designated floodway must conform to the Floodplain Regulations.
