

**Why should I register?** The registry is a tool we use to plan and prepare for **YOUR** needs.

**How will my information be used?** Your registration information will be part of disaster plans and maps which emergency planners and responders can access when a disaster strikes.

**If I register does that mean I will be rescued first?** Enrollment in the program **does not** guarantee immediate assistance in a local emergency. Every resident should plan and prepare to be self-sufficient for **3 to 5** days.
